

BRUSHLESS WIRE-ROPE CLEANING DEVICE

ABSTRACT OF THE DISCLOSURE

A brushless wire-rope cleaner having a base plate, two side members arranged on a base plate at a distance from one another, and a cover extending from one side member to the other side member so that the base plate, the side members and the cover form a channel. A cleaning element is slideably arranged in the channel and a tensioning mechanism is arranged to slide the cleaning element through the channel.
